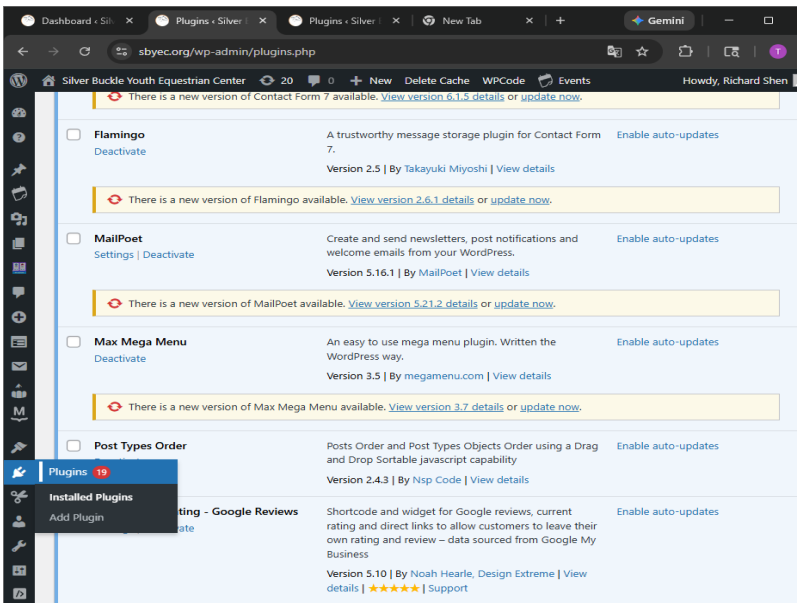
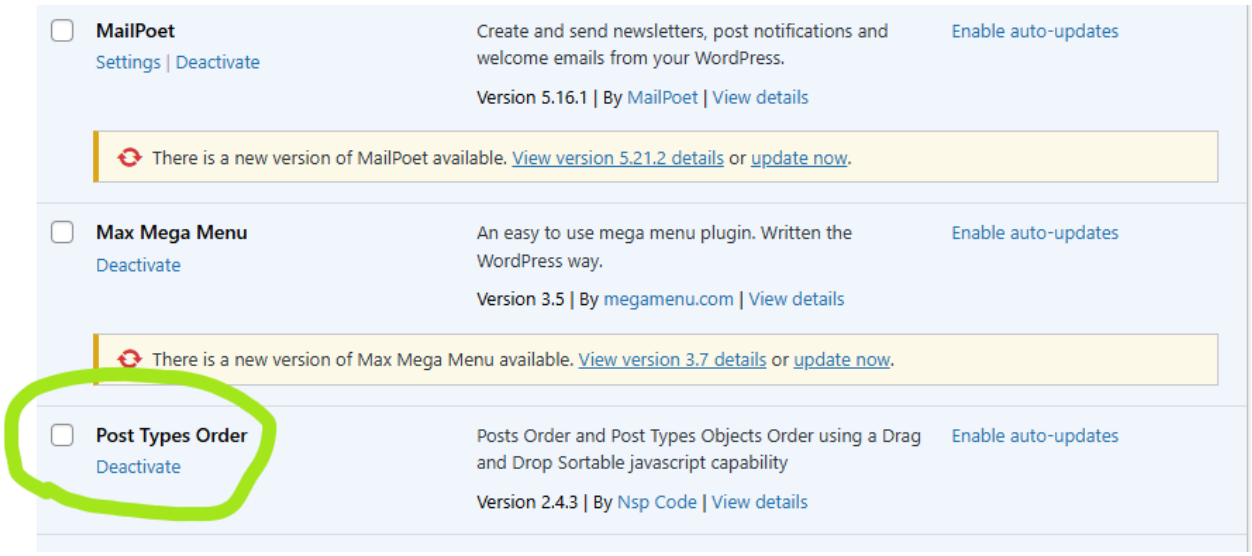
Move the position or order of the Board Members

Step 1: Hover over the Plug-in icon and press “Plugins”



Step 2: Make sure the “Post Types Order” is deactivated (if you click the “deactivate”, it will be deactivated. Please don’t click that.)



Step 3: Hover over the **Member** icon on the left sidebar, then click **All Members**.

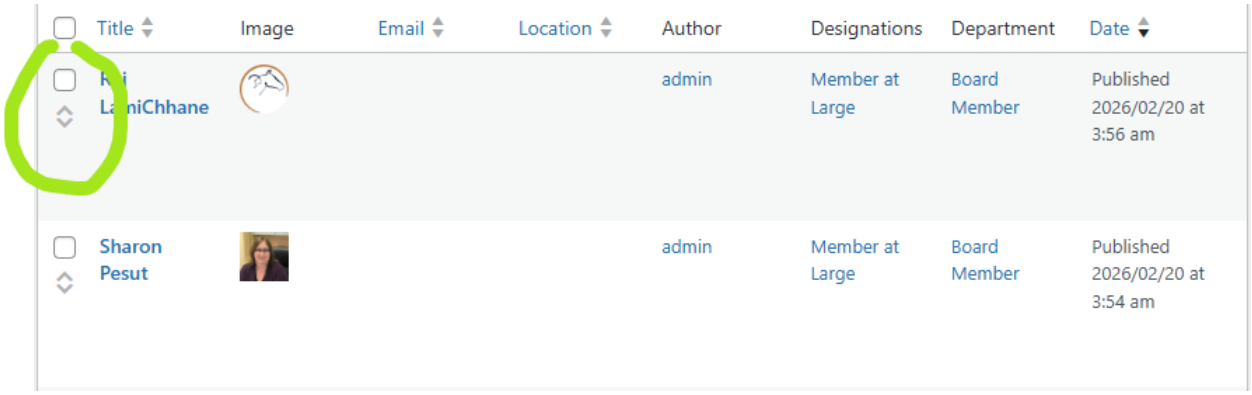
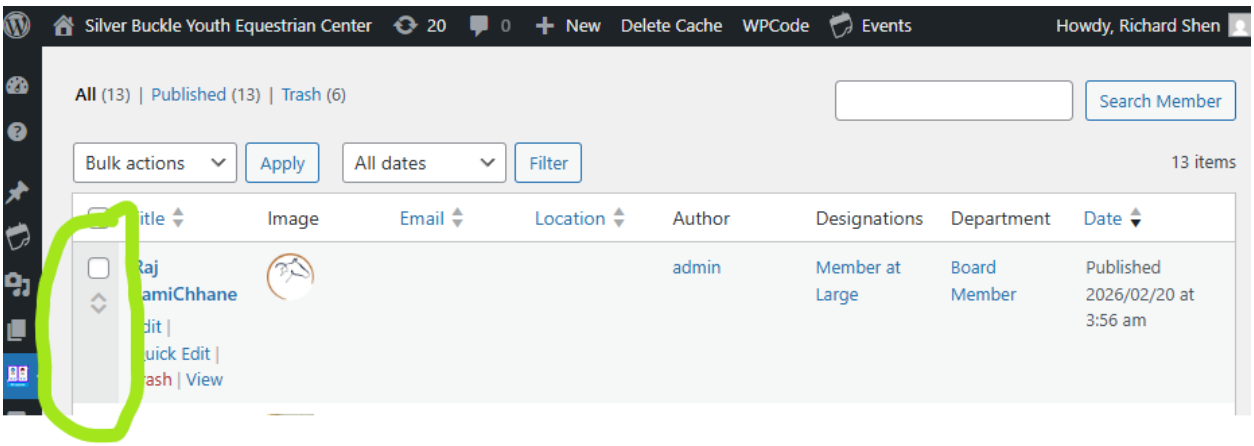
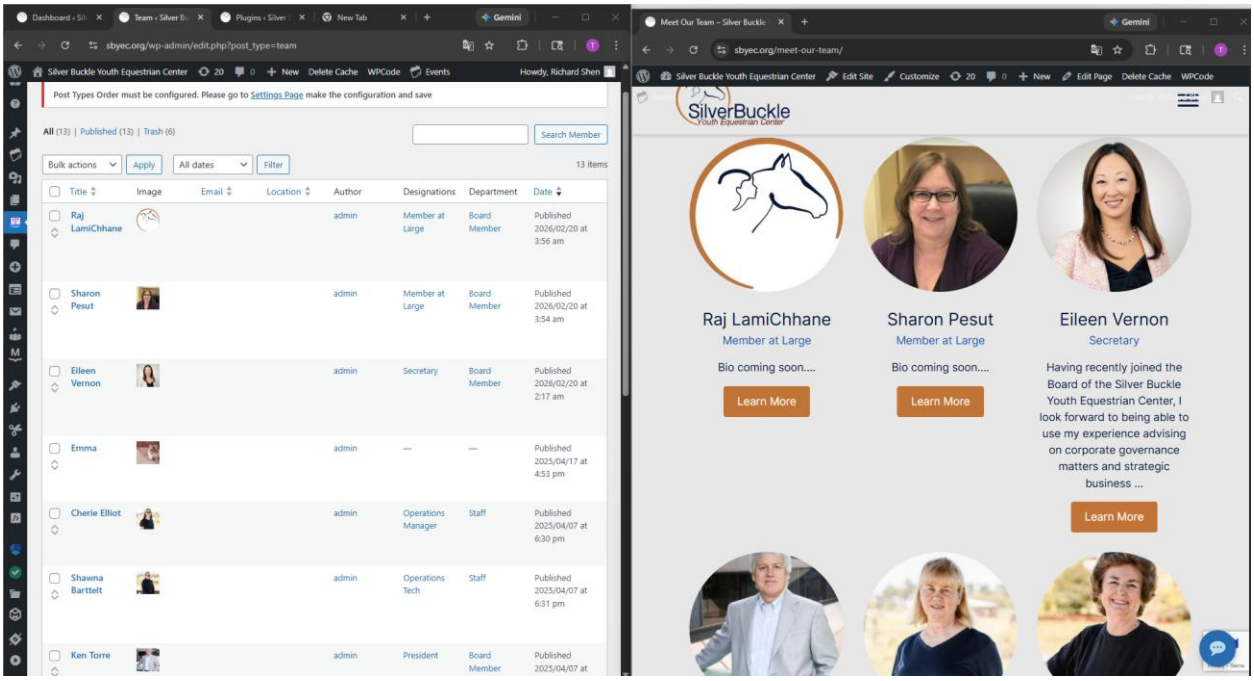
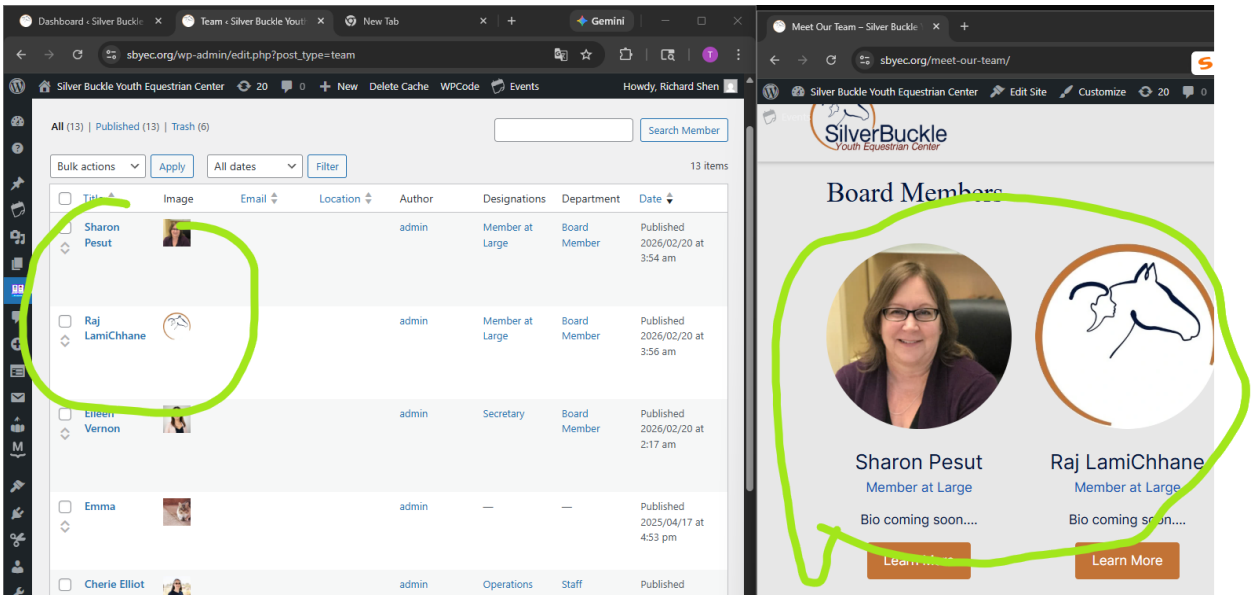
Step 4: Hover your mouse over this area, and you'll notice that the box becomes darker.





Step 5: Check the current page and drag the darker area.





If you would like someone to appear first, simply drag the darker section and move it to the top position.

There's no need to worry about mixing Board Members with the Silver Buckle Team — they are separate categories and will not affect each other.

Step 6: Change the position.

As shown in the image, this is the updated result after making the changes.
